

DIABETES AWARENESS **DOOR HANGERS**

Are You At Risk For Prediabetes?

This *Community Diabetes Awareness* Project is a collaboration with the Wisconsin Lions Foundation, Inc. (WLF) and the Wisconsin Diabetes Prevention and Control Program. (DPCP)

This Wisconsin partnership project is a “*must do*” for Lion and Lioness clubs who are looking for a project that can be easily and quickly completed. It has great potential for fun interaction with other local organizations such as the Leo Clubs, Boy Scouts, Girl Scouts and others.

So what is the Door Hanger Project? Clubs are being asked to simply distribute to local communities an informational, two-sided door hanger that is hung on the outside of a household door. The door hanger provides a test to see if you are at risk for prediabetes.

Project Details with Step by Step Instructions for Lion Clubs

Step 1: Identify an area in your community to distribute door hangers.

Step 2: Place an order for door hangers from the WLF Office.

Step 3: Arrange with your club to distribute door hangers with a local partner such as a youth group or distribute them on your own.

To Order – All door hangers can be ordered from the Wisconsin Lions Foundation Office 877-463-6953, LShelley@wlf.info, or fill out the form below.

ORDER FORM
